Program Info: UpTime 2.0 WinXP, Vista, 7, 8, Mac Type: Freeware Developer: Author: Tatarzyniak File size: 13.8 MB Fantastical is a Windows program designed for managing your calendar. This is an add-on component of the Mac OS X Mountain Lion, which is a Lion-like operating system Apple developed to compete with the likes of Windows 8. The Mac OS X 10.8 allows you to switch between two views with a press of the space bar. The basic options are Calendar, Dock and Finder. This is an overview of Fantastical. Fantastical Calendar Features: There are three main ways to use Fantastical, which are based on time span and time. People all have different daily, weekly or monthly habits. You can easily create or modify these routines. You can even add notes so you can get updates about upcoming events. The user interface is a bit different than it is on an iPhone or an Android device, but even if you use the first touch to bring up items, you can perform all the same functions. The user interface is very efficient and you will have no trouble finding what you are looking for. You are able to save your calendar for later as well. The application will be saved automatically. There are options that allow you to add images, notes and flag events. You can upload calendar feeds or create custom feeds. It is very easy to create a repeating event, which is an option that is very helpful. The tool allows you to link to other social network like Facebook, Twitter, LinkedIn and Exchange. You can also accept instant messages. You can start using Fantastical from the desktop icon and then you can access the calendar through a folder on the iPad, iPod touch or other mobile devices. You can see multiple calendars in your account, and you can tap on a calendar to see all the events for that day. With this feature, it is possible to add shared calendars, and you can add multiple accounts to your calendar. You can even add one-time events. The software is somewhat complex and it requires you to install it on your Mac. Fantastical is a Mac OS X application that helps you manage your calendar. This program was created with the help of the Fantastical team. Fantastical contains three main views, which are based on time span and time. The calendar view allows you to add events, edit contacts and do daily things.
