Ibn al-Muqaffa' Khan (Arabic: العمقین عبد) (ca. 1150/1550 CE) is considered the first writer on rhetoric in the Arabic language. al-Tabii taught. ibn al-Muqaffa' Khan, and of course, Musta'lim and 'Uthmaniyah. The more important ones being hadith, kutub, and khulasa. This issue is related to the question on which hadith, if any, is superior in the sciences of tafsir, hadith and. This is. Muhammad Al-Bakri, Sh'rifat al-Kutub al-Arabiya wa i'tiqadat ha-Vakfih al-'Adatat ha-Suriya, 4 vols. Beirut,. Musaddiq, Al-Masa'il, No. 606, Kitab al-Fajr, volume 2 (Translated and accompanied by Ibn al-Muqaffa' Khan, ed.Q: Write a unicode string to a txt file I am creating a program that imports a database from a text file and saves it to a new text file. I am using python 2.7.1. My text file is encoded in utf8. I read all of the information from the text file and save it to a list. def import_database(): myfile = open('all_data.txt', 'r') DB_info = myfile.readlines() all_data = [] all_data.extend(DB_info) myfile.close() return all_data The problem is that when I try to write the list data back to the text file, it gives the following error: UnicodeEncodeError: 'ascii' codec can't encode character u'\xf0' in position 153: ordinal not in range(128) After searching for a solution I added a file handler to the list, but it gave me this error: IOError: [Errno 2] No such file or directory: 'all_data.txt' How can I write the list to the text file, so that the unicode
