Prayer Reminder is a useful application for the users who want to view reminders on their Windows 8 device. The application automatically calculates the prayer timings and displays notifications on your desktop. You can use the Internet connection for determining your location or manually enter the country and the city in order to schedule the reminders. You can follow the set prayer timings in your daily schedule. The application helps you for the prayer timings like: Time for prayer Time to pray the sunrise Time to pray the sunset Sufi and Islamic tradition If you want to view the prayer timings for particular times and days then you can select the particular time and day of the week in the application. The application also generates notifications for the prayer timings. If you want to do that, you can manually set up the time and the day of the week. You can access your prayer timings from the application itself. Prayer Reminder for
