-

---

Portable software that can be used on any USB storage device. • Desktop icon showing active processes is always available on the taskbar. • Screen snapshot taken during the progress of installation makes the user feel safe. Grant Admin Full Control Screenshots: Grant Admin Full Control is a lightweight software application developed specifically for helping you take ownership of files and folders on your computer. This means that after you take ownership with this

---

particular tool, you have the right to access it in the name of the current owner (logged on with a Windows account) or local user, as well as enable inheritance for that file. Why you need ownership superpowers

Since many files have restricted permissions and can be opened only with administrative rights, this tool aims at giving you the possibility to manually take ownership and grant full control permission of files and directories. This way, you are able to modify,

---

rename, or delete items and folders. Grant Admin Full Control comes in handy for all users who have experienced problems in running some applications on Windows operating systems, such as Windows 7, Windows Vista, Windows Server 2008, or Windows Server 2008 R2. The process can be carried out by using scripts or command-line operations, but these methods don't come in handy for less experienced users, and this is why you need applications like Grant

aa67ecbc25

Grant Admin Full Control is a lightweight application developed for Windows XP, Windows Vista, Windows 7, Windows 8, Windows 8.1, Windows Server 2003 and Window Server 2008. It is a portable software that does not require installation. All you need to take along is a USB flash drive or other memory devices. The program enables you to take ownership of files, folders, executables, DLLs, and anything else located

---

on your computer. This means that after you apply the program you have the right to access the files and folders in the name of the current Windows user, or by selecting local user. You can further enable your ownership to pass on this access to other users, enabling them to access the same folder and change its content.
